Summary

Data Analyst with a strong foundation in SQL, Python, Excel, and Power BI. Skilled in cleaning, analyzing, and visualizing data to generate insights and support data-driven decision-making. Interested in collaborating on meaningful analytical work in fast-paced environments.

Education

Master of Computer Applications (MCA) 2025 – 2027

Indira Gandhi National Open University (IGNOU)

Bachelor of Computer Applications (BCA) – Data Science & Big Data Analytics 2025

Manav Rachna International Institute of Research and Studies

Skills

Data Analysis & Visualization: Excel, Power BI, Tableau, Matplotlib, Seaborn

Programming & Scripting: Python (Pandas, NumPy), SQL

Database Management: MySQL, PostgreSQL

ETL & Data Preparation: Power Query

Analytical Skills: Data Cleaning, EDA, Insight Generation

Soft Skills: Problem-Solving, Critical Thinking, Communication

Experience

Data Analytics Job Simulation April 2026

Quantium (Forage)

Tools Used: Python, Excel, Power BI

- Analyzed transactional data to derive customer insights and support decision making.
- Performed data cleaning and analysis to ensure data quality and accuracy.
- Created reports and visualizations to communicate insights effectively.

Data Analytics Job Simulation October 2025

Deloitte Australia (Forage)

Tools Used: Excel, Tableau

- Analyzed business data to derive insights and support analytical use cases.
- Built interactive Tableau dashboards to visualize trends and improve stakeholder understanding.
- Used Excel for data classification and analysis to support business decision making.

Projects

End-to-End Customer Analytics Project | Python, SQL, Power BI Dec 2025

- Analyzed 3,900+ transactional records to identify customer purchasing behavior and support data-driven decision making.
- Performed data cleaning and preprocessing to improve data quality and ensure accurate analysis.
- Developed reports and visualizations to communicate insights and support business recommendations.

Employee Attrition Analysis Dashboard | Power BI Feb 2026

- Developed Power BI dashboard on 1,470 employees to analyze attrition trends, job satisfaction, and workforce patterns.
- Identified key drivers (overtime, low satisfaction, early tenure) and built dynamic filters for actionable HR insights.

Certifications

- **Google Data Analytics Certificate – Coursera (2024):** Completed case studies involving SQL, data cleaning, dashboards, and reporting.
- **Microsoft Certified: Azure Data Fundamentals (DP-900):** Knowledge of cloud data concepts and analytics solutions in Azure.
- **Microsoft Certified: Azure Data Engineer Associate (DP-203):** Experience with data integration, transformation, and SQL workflows in Azure.
